

KawKaw Coin Whitepaper

What is Kawkaw?

Kawkaw is a peer-to-peer blockchain, it uses as algo Kawpow that is a derivative of ProgPOW with parameters specifically for Kawkaw. You can only use GPU to mine it and it's ASIC-resistant.

And.....Pog

This work proposes 'proof-of-game (PoG)' consensus algorithm suitable for resourceful and resource-constrained devices. Heavy computational challenge in block structure protects the blockchain network from selfish miners and majority attacks. PoG consensus algorithm is suitable for both single and multi-player challenges. It is observed that single and multi-bit challenges increases the resource consumption and makes it difficult for resource constrained device to confirm block in stipulated time period.

You can issue tokens on kawkaw blockchain.

Token names are guaranteed unique. The first to issue a token with a given name is the owner of that token project, the issuer of a token burns KAW "collected into donations address", and must provide a unique token name. The issuer determines the quantity issued, the number of decimal places, and whether they will be allowed to issue more of the same token in the future.

Uses Case:

We want to use it as :

- Cryptocurrency to buy games and goods on marketplace.
- Cryptocurrency to pay game developers.
- Cryptocurrency to pay developers for kawkaw' projects.
- Cryptocurrency to use for donations.

Specifications:

Name : Kawkaw
Ticker : KAW
Algo : Kawpow
Total Supply : 2,1 Billion
Block reward : 500
Block speed : 1 minute (60 seconds)
Maturity : 101 confirmations
Transaction cost and weight : 0.01/kb , max 4 mb
p2p port : 9090
rpc port : 9099
Dev's reward : 8% of each block mined.
Capital Letter : K
Premine : No
Halving : every 2,100,000 blocks
Dev address*: KBiRwqpTDH5Qem2LGUUAXzCpUaQW3VpMAH move funds to

KVQunb1tJLhKW6e4XyuH7vzjWF7gceLYYU

* Dev Address will receive 8% of each block mined, out of which 2% goes for Gamers and 1% to Stakers!

Future Developments and Roadmap:

We prefer to work instead to do promises that we can't able to keep, so we reserve to add step by step our achievements.

So what we will do?

- 1) Develop and implement game server for the coin.
- 2) Ability to stake KAW for members via standalone script , with coins put in play by team to pay rewards.
- 3) Search and find a crypto wallets that list Kaw, to use the coin as payment around the world. Like coinpayments or similar.

Time frame for all of the above is 2023.

What we did so far:

- 1) Started idea and created the core.
- 2) Explorer online
- 3) Official pool online + unofficial pools online
- 4) Listed on small exchanges.
- 5) Listed on Coinpaprika and Miningpoolstats.
- 6) Discord, Twitter, Github, Website, Telegram.
- 7) Developed gameserver for the first game "Minecraft" Beta phase <http://mc.kawkawcoin.org>
- 8) Developed and put online staking website <https://staking.kawkawcoin.com>
- 9) Developed gameserver for second game "CSGO" Beta phase Europe: 135.181.40.149:27015
- 10) Developed gameserver for second game "CSGO" Beta phase USA : **5.161.133.48:27015**
- 11) Developed gameserver for second game "CSGO" Beta phase SA : **38.54.57.105:27015**

Gamers reward:

Total KAW sent during lifetime to PoG addresses:

168,000,000

Total coins put in play by pog address, 2% of total:

42,000,000

Players addresses will receive :

432,000 kaws monthly

<https://explorer.kawkawcoin.org/address/KRyRZrA3dc4SmQsyCgF5wozbCrWZ6hDS4A>

Stakers reward:

Total coins put in play by pog address, to reward stakers, 1% of total : 21,000,000.

Staking address will receive 216,000 kaws monthly, until halving.

<https://explorer.kawkawcoin.org/address/KG192LWAtCAkkR5LdNXbiM8YpoVBNpfG66>

staking website : <https://staking.kawkawcoin.com>

the staking percentage may vary every month, according to the budget and the stakers involved.

The logo consists of the word "KAWKAW" in a bold, rounded, sans-serif font. Each letter is filled with a vertical rainbow gradient, transitioning from purple at the top to yellow at the bottom. The letters are spaced out and have a slight shadow effect.
